CHEMNITZ

## CRC Cards

### **Softwaretechnikpraktikum - Meilenstein 2**

Fakultät für Informatik  
Professur Softwaretechnik

Eingereicht von: Gruppe 5  
Einreichungsdatum: 20.11.2022

Betreuerin: Prof. Dr. Janet Siegmund  
Betreuer: Dominik Gorgosch

# Zusammenfassung

## CRC Cards

Database	-
create, read, update, delete exercise data	AbstractExercise
create, read, update, delete user data	AbstractUser

Server	-
serve webpages and related files	Database
provide API interface	AbstractUser
translate API requests into SQL queries	AbstractExercise

AbstractUser	-
reflect database structure	Database
provide database interface	Server
define API route	

User	AbstractUser
solve exercises	AbstractExercise

Administrator	AbstractUser
manipulate exercise data	Database
evaluate solutions	ExerciseCreator
	AbstractExercise
	User
	LearningProgress

AbstractExercise	-
reflect database structure	Database
provide database interface	Server
define API route	

GapTextExercise	AbstractExercise

SyntaxExercise	AbstractExercise

ParsonsPuzzleExercise	AbstractExercise

FindTheBugExercise	AbstractExercise
DocumentationExercise	AbstractExercise
OutputExercise	AbstractExercise
ProgrammingExercise	AbstractExercise
ExerciseTracker	-
track solving time	AbstractExercise
ExerciseEvaluator	-
evaluate solution store solution attempt and solving time	SourceCodeEvaluator AbstractExercise ExerciseTracker Database Administrator
SourceCodeEvaluator	-
parse user code execute user code in sandbox	ExerciseEvaluator AbstractExercise ExerciseTracker Database Administrator
LearningProgress	-
assemble learning progress create graphical representation	Database User AbstractExercise
ExerciseCreator	-
create exercise with hints and solution	Database AbstractExercise
HomePage	-
provide login	AbstractUser LoginArea

LoginArea	-
display components	TextField LoginButton SignUpButton ForgotPasswordButton

  

TextField	-
accept user input obfuscate password input	

  

LoginButton	-
trigger login process	Server

  

SignUpButton	-
trigger user creation process	Server

  

ForgotPasswordButton	-
trigger password reset process	Server
